

Team Canada

Relay Team Selection Information

Women's team	10 year age category
Men's team	5 year age category

A nation can register one team in each age category.

Only one skier in a particular age category is necessary to form a team.

Example: AG M-03--- M-03, M-05, M-04, M-06

Must ski in the age category of the youngest skier.

The fastest two skiers in the 10km classic and free technique automatically qualify for the relays. (M 01 to M09) (F01 to F08)

The fastest two skiers in the 5km classic and free technique automatically qualify for the relays. (M10 and older) (F09 and older)

Should one of those skiers decline, the next fastest skier in that technique in that age category will qualify

If a skier declines to ski in an age category in which they qualify, they cannot race in another age category.

If a skier qualifies for a relay team in both disciplines, that skier shall choose their discipline to race as promptly as possible.

Skiers who register for the "Locals" Special Offer of one race for 80 euros are not eligible for the relay.
